## Prospectus.

---

In the year 1836, the Rev. S. T. BADIN, of venerable memory, while traveling through the northern section of the State of Indiana, visited the spot *now* known by the name of "NOTRE DAME," but then lying unnoticed in its native forest wilderness and beauty. Struck by its loveliness, or to speak more correctly, influenced by that Providence which directs the most apparently unimportant events for the accomplishment of its own eternal designs, Father BADIN resolved at once to secure this place to the Church as the site of a future College. This resolution he executed. Not long after, it passed into the hands of the Right Rev. Bishop de la Hailandière, who transferred it to the Very Rev. E. Sorin, Priest of the Congregation of the Holy Cross, who with a few Brothers of the same Order had come to America about a year before. In 1844 they first took possession of it, and in a few years were enabled, by the blessing of God, to erect spacious College buildings, which have been year after year much enlarged and furnished with all the modern improvements.

Such has been of late the rapid increase in the number of Students, that the Board of Administration has felt obliged to throw aside all previous calculations, and to prepare at once ample room to accommodate fully and comfortably five hundred boarders. It is to meet every want of that number, including all the modern improvements of the age, and, in a word, everything that an experience of a quarter of a century has shown to be beneficial and desirable, that the new College building already in progress of erection, and which will be ready for occupancy before the first of September next, has been planned. Here are the outlines, viz: one hundred and sixty feet in length, eighty feet in width, and six stories in height.

From the basement to the top of the building there is the greatest simplicity of divisions or arrangements, rendering all movements and inspection natural and easy; and in this chiefly consists the real benefit of experience.

Here is the division of each floor. In the basement two refectories, eighty by forty; one for the Seniors in the eastern wing, and the other for the Juniors in the western wing; the central part, eighty by seventy, is divided lengthwise by a large corridor, seventeen feet wide, joining the two dining-rooms, and having, on either side, a spacious wash-room for each department.

On the first floor, two study-rooms, same size as the refectories, the same large corridor between, leaving, on the rear, a third study-room for the Collegiate Course, eighty by thirty-two; and in front, besides the entrance hall, the President's room on the right, with its parlor; and on the left, the Secretary's office; both of the easiest access at all times.

The second floor is reached by a double flight of wide stairs; the corridor goes through and through, from east to west; this is the class floor; it is divided into thirteen large class-rooms, and five rooms for Professors on the central front.

The same symmetrical stairs land us on the third floor: but there the corridor extends only from one wing to the other, leading on the right to the first Dormitory of the Seniors, and on the left to the first one of the Juniors, each eighty by forty; on the front, in the centre, five rooms for Professors; and on the rear, five rooms for Music.

The fourth floor is precisely a repetition of the third.

The fifth is divided into three large Dormitories, and a Chapel on the front.

From the circular walk around the foot of the dome, a beautiful view of the city and vicinity by day, and from within, a clear insight into the starry regions at night, will richly repay visitors for the little fatigue of their ascension. On the top of the dome, you see the colossal statue of Notre Dame, with the brilliant crown of the twelve biblical stars, whilst beneath, under her foot, lies the figure of the serpent, whose head she crushes. The countenance of the Virgin is uplifted, directing all eyes and hearts to Heaven. The statue is after the model of the famous monument lately erected by Pio Nono on the Piazza di Spagna, in commemoration of the definition of the Immaculate Conception.

This Institution was incorporated by an act of the State Legislature of Indiana, in 1844, under the name and style of "University of Notre Dame," and empowered to confer Degrees in all the learned Professions.

The University of Notre Dame is situated in the lovely valley of the St. Joseph, scarcely a mile from that river, and on the banks of two beautiful lakes of clear spring water. It is in the midst of a fine and healthy farming region, and by means of two great trunk lines of Railroad—the Michigan Central and the Michigan Southern and Northern Indiana, the latter passing within a mile of the College grounds—is easily and quickly accessible from every part of the country. At the Michigan Southern Railroad Depot, at South Bend, omnibuses or private conveyances can be obtained. Besides this, a stage passes the College twice a day, connecting the two lines of Railroad. In the town itself there are large and commodious hotels where every comfort may be enjoyed.

The University is conducted by the Fathers of the Congregation of the Holy Cross; a number of highly competent Lay Professors assist in the various branches of Studies; other Teachers and the Prefects of Discipline are sup-

plied by the Brothers of the Holy Cross, who are, like the Fathers, devoted by their sacred calling to the education and instruction of youth.

The disciplinary government is mild, yet sufficiently energetic to preserve the most perfect order and regularity. The morals and the general deportment of Pupils are assiduously watched over, and their comforts and personal habits receive the same attention as if they were in the bosom of their own families. Only conciliatory means of correction are used; but if any Student proves insensible to these, he is promptly dismissed from the College.

The Tables of Honor, Weekly Notes, Monthly Certificates, Quarterly Bulletins, Semi-Annual Examinations and Annual Distribution of Premiums are among the many means made use of to excite emulation and love of study in the minds of Pupils and reward the diligent.

Experience constantly proves that a young man may be kept within the line of duty more by a sense of *honor* and *justice*, than by *fear of punishment*.

Catholic parents may rest assured that the most zealous care will be taken that their children comply regularly with their religious duties, and that no efforts will be spared in instructing them fully in the principles and obligations of their Holy Religion.

Although all the members of the Faculty and other College officers profess the Catholic Religion, Students belonging to any other denomination are received; nothing is required of them, in this respect, but to assist, for uniformity's sake, at all the public and regular exercises of Religion with propriety and decorum.

The Pupils are divided, according to their age, into the Minim, Junior and Senior Departments, each having its separate dormitory, study-hall, classrooms, play-grounds, etc., its own complete Gymnasium, with its own Prefects and Teachers.

The Institution possesses a valuable Library of about seven thousand volumes, besides three other small Libraries for the use of the different College Societies, a complete set of Philosophical and Chemical Apparatus, a Museum of Natural History, and a rich Collection of Plants. Among the peculiar advantages which this Institution presents, as a place of Education, may be noticed—

1.—ITS RETIRED LOCATION.—At a time and in a country where serious and solid studies are rare; where dissipations of every kind are thrown in the way of the young Student; where visitors often interrupt the course of the scholar; and where morals are but slightly watched over, it seems that every parent who desires to secure to his son an opportunity of spending the few years of his education usefully and profitably, and passing safely the dangerous season of early youth, removed from all the temptations of our large cities should readily comprehend the advantage of placing him in such an Institution as NOTRE DAME. Here, the young student is under the most

watchful and parental care; here he can apply himself, undisturbed, to his studies, under competent professors, and may acquire a solid knowledge of everything to which he may wish to devote his attention; here, also, his young mind breathes an atmosphere of piety, the influences of which will hover around him throughout his life.

2.—ITS EXTENSIVE GROUNDS.—If Students are here deprived of hurtful pleasures and dissipations which abound in large cities, they are amply remunerated by those delightful and innocent amusements which the nature of this locality so abundantly provides. Nearly one thousand acres of land are attached to the College, and are well laid out, both by nature and art, for College purposes. Whilst the moral and intellectual culture of the Students is attended to with all possible care and solicitude, their physical development is by no means neglected. Two ball-alleys, two ten-pin alleys, three gymnastic apparatuses, lately built with much ingenuity and skill, together with a variety of the latest and most interesting games, viz: foot-ball, cricket, etc., tend alike by their judicious use to invigorate the body and recreate the mind. Moreover the extensive forests surrounding the College give the best opportunities to those who are fond of hunting, whilst the two beautiful Lakes, upon whose banks the University stands, afford choice fishing-grounds and baths in summer, and almost uninterrupted skating during winter. No one can for a moment doubt that these manly sports are highly conducive to the health and happiness of Pupils. All Educators know that innocent, exhilarating and somewhat exciting amusements are the best safeguard of morals for children, especially for young men.

3.—THE CARE TAKEN IN SICKNESS.—Students, when ill, have not to remain in the College Rooms, but are immediately transferred to the apartments of the Infirmary, where they are attended and nursed, with devoted care, by experienced Sisters, who never suffer them to be alone, but strive to supply the place of their absent mothers. An eminent and experienced Physician—a graduate of the “Ecole de Médecine” of Lyons, France—resides permanently in the College.

The last Scholastic year has been marked with a success unprecedented in the annals of the Institution; the number of Pupils, both here and at St. Mary's Academy, exceeded by over one-third that of any former year.

The different departments have likewise been more fully developed, both in reference to classes and discipline. The Faculty is also more efficient and more numerous than before.

Class Books, Stationery, etc., furnished at current prices.

No expenditures for clothing nor advances for pocket money will be made by the Institution, unless an equivalent sum of money be deposited with the Treasurer of the College.

Each Student, on entering, must be provided with

6 Shirts.	2 Suits of Clothes for the Winter.
6 Pocket Handkerchiefs.	2 " " " Summer.
6 Pair of Stockings.	1 Over-coat or Shawl.
6 Towels.	1 Table-knife.
6 Napkins.	1 Fork.
1 Hat.	1 Tea-spoon.
1 Cap.	1 Table-spoon.
3 Pair of Boots or Shoes.	

Students are not allowed to keep money in their possession: whatever pocket money parents may choose to allow to their sons must be placed in the hands of the Treasurer of the Faculty, who will give it out as prudence may suggest or occasion require.

No Student will be received for a shorter period than one session of five months. The most eligible time for entering is at the beginning of the scholastic sessions in September and February, but Pupils are admitted at all times during the year, and their session commences with the date of their entrance.

When Parents wish to have their children sent home, they must give timely notice, settle all accounts, and supply means to defray all traveling expenses.

Should a Student withdraw himself, or be withdrawn by his parents or guardians before the expiration of the session, no deduction is made, except in cases of sickness or dismissal.

## General Information.

The Academic year commences on the first Tuesday of September, and closes on the last Wednesday of June, when the Annual Commencement, the Conferring of Degrees and the Distribution of Premiums take place. It is divided into two Sessions of five months each. At the termination of each Session, a strict examination of all the different classes is made in the presence of the Faculty.

When a Student presents himself for admission into the College, he is examined by the Prefect of Studies, and placed in that class for which his previous attainments may have qualified him. His further promotion depends on his application and progress. Should any Student, during the year, be found capable of passing to a higher class, he will be promoted, and such promotion is equivalent to the honors of the class he left.

The Degree of Bachelor of Arts will be conferred on such of the Students as shall have completed their classical course, and passed successfully a strict examination before the Faculty.

The Degree of Master of Arts will be conferred on each of the graduates of the first Degree, who shall have devoted at least two years to Literary or Scientific Studies.

Diplomas will be given to those Students who shall have completed the Commercial Course, passed a satisfactory examination before the Board of Examiners, and given clear evidence of their moral character.

Students who do not desire to graduate, may adopt a partial or irregular course, fitting them for Commercial life, for Civil Engineering, &c., or for any pursuit outside of the Learned Professions, which requires a special training. Such a course would run parallel with the regular course, and would include all the advantages, literary and otherwise, which the Institution offers to its inmates in common.

Special facilities exist at Notre Dame for the acquirement of the French and German Languages. Not only are these Languages taught very carefully by persons of acknowledged competency, but many of the members of the Institution being natives of France and Germany, opportunities at all times occur for conversation in these tongues.

All Students applying for admission will be required to give satisfactory evidence of their moral standing.

All letters sent and received by Students may be opened and read by the President or his substitute.

## Regulations of the University.

1st. All the Students of this Institution are required to attend the exercises of public worship with punctuality and decorum. They shall assist at Mass on Sundays and Wednesdays. Catholic Students shall go to Confession every month.

2d. As soon as the bell announces the beginning or end of a College Exercise, every one shall repair in silence to the discharge of that duty to which he is called.

3d. The time of recreation excepted, silence must be inviolably observed in all places.

4th. Students must show themselves obedient and respectful towards the Professors and Prefects of the Institution, never absenting themselves from the place in which they ought to be, without permission from proper authority.

5th. Students must carefully avoid every expression in the least injurious to Religion, their Professors, Prefects or Fellow Students.

6th. Students are not permitted to visit private rooms.

7th. The use of tobacco is forbidden.

8th. Intoxicating liquors are absolutely prohibited.

9th. Compensation for all damage done to the furniture, or other property of the College, will be required from the person or persons causing such injury.

10th. No branch of study, once commenced, may be discontinued without permission of the Prefect of Studies.

11th. No one shall leave the University grounds without the permission of the President or Vice President.

12th. Any breach of pure morals, either in words or actions, must be reported forthwith to the President or Vice President.

13th. Whether in class or recreation, when permitted to converse at table, or during their walks, Students should endeavor to improve the purity of their language, and cultivate urbanity of manners. A few years in College would be profitably employed if nothing else were learned than to converse and behave with the dignity and propriety of gentlemen.

14th. No one shall keep in his possession any money, except what he receives weekly from the Treasurer, on Wednesday, at 10 o'clock, a. m.

15th. On the first Wednesday of every month, "Certificates of Good Conduct" and of "Improvement in Class" are issued by the Faculty to such Students as deserve them. On either side of the President's table, and conspicuous to every visitor, are the "Tables of Honor," presided over by the Vice President and the Prefect of Discipline. At these are seated twenty-two of the Students whose conduct has been most exemplary during the preceding week. They are elected by the unanimous vote of the Professors and Prefects.

16th. In winter, on Saturday, at 4 o'clock, p. m., the Students must wash their feet. In summer, this regulation is rendered unnecessary by the rule which requires the Students to bathe, in common, twice a week, in St. Joseph's Lake.

17th. On Sunday and Wednesday mornings, the Students must place upon their beds, wrapped up in a bag, their soiled linen of the previous half week. On Monday morning, the Students of the Senior and Junior Departments repair, in ranks and in silence, to their Dormitories, whence they take their Sunday clothes and carry them to their trunks. And on Saturday, at half-past three o'clock, they go in the same manner to the Trunk Room, and bring their Sunday clothes to their Dormitories. The pupils of the Minim Department change as often as they find a change on their beds. The Sisters take charge of their wardrobe. The Students will be reviewed at eight o'clock on Sunday and Wednesday mornings, with special reference to their personal neatness.

18th. Stationery, &c., will be delivered to Students, as follows: On Mondays and Thursdays, at half-past twelve o'clock, to the Students of the Senior Department; and on Tuesdays and Fridays, at the same hour, to the Students of the Junior Department. Every Student should have a memorandum book in which to enter all his receipts and expenditures, and his notes for recitation in class, and for conduct during his stay in College. Books prepared expressly for this purpose can be obtained from the Secretary.

19th. Students who may have failed to give satisfaction in the Class Room, or who shall have been guilty of misconduct, or breach of rule, will be sent to the Detention Room during the recreations or the promenades, and required to prepare their lessons, or perform such tasks as shall be assigned them.

20th. Those Students who read sufficiently well and audibly, will occupy the Reader's Stand, in their turn, in the Refectory. An alphabetical list of Public Readers will be posted in a conspicuous place, and every one named in it will read for one day, in order, at dinner and supper. At the end of each meal, any Student is liable to be called upon to give an account of what he has heard read.

21st. Senior Students will be permitted to read or study from eight to nine o'clock, p. m.

22d. Every month, all the Students must write to their parents and guardians, and have their letters corrected by the Secretary of the Faculty, previous to their being mailed. All letters sent or received may be opened by the President or Vice-President.

23d. When a Student is sick, he will obtain permission from the Prefect of Health to go to the Infirmary, and will observe the regulations of that place until his recovery.

24th. No book shall be introduced into the College, without being previously examined and approved by the Prefect of Studies. Objectionable

books found in the possession of Students, will be withheld from them until their departure from the University.

N. B. The happiness, no less than the improvement of Students, is so closely connected with the good order and even rigid discipline of the College, that no young gentleman of good sense, who has at heart his own welfare and the accomplishment of his purpose in entering the Institution, can fail to discover the importance of a strict observance of the foregoing Rules. If the Authorities of the University exhort all to exhibit a sincere and unwavering zeal in keeping these Regulations, they demand of Students nothing more than the promotion of their own interest.

\* \* There are in the Institution several Societies, whose Constitutions and By-Laws have been approved by the Faculty, such as the St. Vincent de Paul's, Arch-Confraternity, St. Aloysius' Literary and Historical, Holy Angels, and Philharmonic Societies, with which Students are authorized and recommended to connect themselves.

## Course of Studies.

### MINIM DEPARTMENT.

In this Department are admitted the young boys, under ten years of age, who are carefully taught—by highly competent female Teachers—Spelling, Reading, Writing, and the Elements of English Grammar, Geography, History and Arithmetic, so as to fit them, after a lapse of time more or less extended, for the higher branches of study.

# St. Joseph's Manual Labor School.

Chartered in 1844.

---

**I**N this Department, conducted by the Brothers of Holy Cross, boys are taught several useful trades, and receive at the same time a good common English education. They are constantly under the vigilant and paternal care of skillful Brothers, who devote their lives and energies to the noble task of preparing the children of the laboring class to become good Christians and useful members of society.

The MANUAL LABOR SCHOOL has been recently much improved. The Building and the different Shops have also been considerably enlarged, to meet the demands of the increasing number of applicants.

## **CONDITIONS FOR ADMISSION:**

*First.* Each applicant must have attained the age of twelve years, and shall remain until he is twenty-one. (At eighteen, the period when a youth is supposed to have become master of his trade, he begins to enjoy the fruits of his industry, and from this time forward receives wages for his labor.)

*Second.* He must pay a fee of one hundred dollars on entering.

*Third.* He must be provided with two suits of clothes, or a sufficiency for one year.

# St. Mary's Academy,

(ONE MILE WEST OF NOTRE DAME UNIVERSITY.)

CONDUCTED BY THE "SISTERS OF HOLY CROSS."

---

THIS Institution, situated on the beautiful and picturesque banks of the St. Joseph's River, is everything that could be desired as a locality for a Female Academy. All the branches of a solid and complete Education are taught here. MUSIC especially, both Vocal and Instrumental, and the MODERN LANGUAGES, form prominent features in the Course of Instruction.

Particular attention is paid to the Religious Instruction of Catholic pupils. Pupils of all denominations are received, and for the sake of order merely required to attend the public religious exercises with the members of the Institution.

The Buildings are spacious and commodious, suited to the Educational requirements of the day, and furnished with all Modern Improvements. Every portion of the building is heated by steam, and hot and cold baths are attached to the sleeping apartments.

The Grounds are very extensive, beautifully adorned, and situated in that charming seclusion which is so favorable to the healthful development of moral, physical and intellectual power.

The proximity of the two Institutions to each other is a great convenience to parents having children at both when they visit their sons and daughters.

\* \* \* For further particulars concerning this Institution, the public are referred to the "Tenth Annual Catalogue of St. Mary's Academy," for the year 1864-5, or address

MOTHER SUPERIOR,  
*St. Mary's Academy, Notre Dame P. O., Indiana.*

N. B.—The friends of the College will be pleased to learn that there is a regular line of omnibuses between South Bend, Notre Dame and St. Mary's, which connect regularly with all the trains arriving at South Bend.
